WHAT WOULD MAKE APRISM GENUINELY VALUABLE TO YOU?

06

Assessment Authorization

I understand the APRISM Property Assessment is intended to establish a stewardship baseline, document observable property conditions, identify maintenance priorities, and support future care planning. It does not replace inspections or evaluations that must be performed by licensed or qualified specialists. I authorize APRISM to photograph observable property conditions and systems for documentation purposes, subject to any privacy restrictions noted above.

☐ I authorize property-condition photography for APRISM records.

☐ APRISM may contact listed vendors to confirm service history or scheduling, when requested.
